Introduction

- Enclosed is the weekly Treasury Single Account ("TSA") cash flow report and supporting schedules with weekly YTD FY2020 actual results compared to the FY2020 Liquidity Plan and FY2019 actual results.
- TSA is the Commonwealth's main operational bank account (concentration account) in which a majority of receipts from Governmental funds are deposited and from which most expenses are disbursed.
- Receipts in the TSA include tax collections (including revenues assigned to certain public corporations and pledged for the payment of their debt service), charges for services, intergovernmental collections (such as reimbursements from Federal assistance grants), the proceeds of short and long-term debt issuances held in custody by the Secretary of Treasury for the benefit of the Government fiduciary funds, and other receipts. Only a portion of the revenues received by the TSA is included in the annual General Fund budget presented to the Puerto Rico Legislative Assembly for approval. Other revenues are separately assigned by law to certain agencies or public corporations but still flow through the TSA.
- Disbursements from the TSA include payroll and related costs, vendor and operational disbursements (including those reimbursed by Federal assistance grants and funded from Special Revenue Funds), welfare expenditures, capital outlays, debt service payments, required budgetary formulas and appropriation payments, pass-through payments of pledged revenues to certain public corporations, tax refunds, payments of current pension benefits and other disbursements.
- Federal funds related to disaster relief for hurricanes Irma and Maria are deposited in a separate bank account overseen by the Government Authorized Representative ("GAR"). Funds may be transferred to the TSA either: (i) after admissible disbursements (per approved Project Worksheets) have been made or (ii) once supporting documentation for an accrual or related expense are provided to and approved by FEMA. Therefore, FEMA funding may also be received in advance of actual cash disbursement, as payments to vendors may occur subsequent to when the corresponding services are rendered / expenses are recorded.
- Data limitations and commentary:
The government has focused on cash transaction information for which access to reliable, timely, and detailed data is readily available. The government continues to work with DTPR and other parties to access additional reliable data that would help to provide additional detail in the future.

2 GF Vendor Disbursements	75	3. Mostly due to lower YTD pass-throughs to PRIDCO and ASEM. This is due to timing and the variance is expected to be offset by future transfers.

YTD Cash Flow Summary - TSA Cash Flow Actual Results

Net Cash Flow - YTD Actuals

- 1.) State fund cash flows account for the majority of the cash build with the primary positive drivers being strong General Fund collections and on-budget spending. Federal Fund inflows of \$2,382M represent 38% of YTD inflows, but are largely offset by Federal Fund disbursements, with YTD net deficit of \$38M.

TSA YTD Cash Flow Actuals: Key Cash Flow Concepts (\$M)

Net Cash Flow YTD Variance - LP vs. Actual

- 1.) The largest YTD variance driver is State Collections, which primarily consist of General Fund revenues. Corporate income tax revenue was the largest contributor to the out-performance. Cash receipts are still not fully allocated to specific revenue concepts due to ongoing SURJ implementation. The second largest difference is the Federal Funds variance. At this point in the month, the Liquidity Plan forecast a larger Federal Fund deficit than what has been realized to date. This is expected to reverse.

FY20 TSA Cash Flow Actual Results - Footnotes

Footnotes:

- (a) Represents FY2019 actual results through October 19, 2018
- (b) Represents gross tax collections received and deposited from all Hacienda Collection Posts, through the Hacienda Colecturia Virtual (online) and/or SURI. Additionally, as of the date of this report, the "General Fund Collections" line item includes unreconciled collections due to DTPR transition to collecting various gross tax receipts through the new SURI system. The transition from the Hacienda Colecturia collections system to SURI is ongoing and as such, revenue concept detail for the general tax SURI collections is not available at this time for the portion of collections received by the new general tax SURI account. This resulted in timing-related unreconciled gross collections which will be retroactively allocated to "General Collections" as appropriate once this information becomes available.
- (c) These revenues are collected by DTPR and immediately appropriated.
- (d) Inflows related to the State Insurance Fund, the Department of Labor and Human Resources, the Commissioner of Financial Institutions, and others.
- (e) Represents total gross payroll. Gross payroll includes net payroll disbursed to government employees, cash transfers to the Police Department for payroll costs, and other payroll related costs (employee withholdings, social security, insurance, and other deductions).
- (f) Includes payments to third-party vendors as well as intergovernmental payments to agencies with separate Treasuries.
- (g) Includes Federally Funded Employee Retention Credits.
- (h) Excludes BPPR Clawback Accounts (for clawback revenues prior to June 2016) of \$147M.

General Fund Collections Summary

Key Takeaways / Notes

- 1.) GF Collections outperformance is mainly driven by corporate income tax collections. A portion of the outperformance can be attributed to a one-time tax payment related to M&A activity in the first quarter of the fiscal year. Due to the on-going transition of various gross tax collections from Hacienda Colecturia to SURI, revenue concept detail for September general tax SURI collections is not available at this time. Other General Fund revenue includes receipts that have not been allocated to other concepts yet with a YTD balance of \$414mm. This will be retroactively allocated once information becomes available.
